Diane,

I'm fine with your taking the call. I'm here if you need me.

Also, I left you a message. I'm thinking of sending a thank you to the state, for last week's meeting. Here's what I'm thinking of sending. Thoughts?

"NJDEP folks:

I wanted to thank you all for last week's meeting. I thought we covered some challenging issues, made progress on many of them, and identified some areas where we can do some work to keep moving forward on others. We've already started trying to figure out some options to include a reference to risk-based remediation levels as a goal in a final ROD for the site.

Diane will be in touch with Jay to set up another call or meeting in a week or two so that we can further discuss how to move forward. "

I don't think I sent this to you, but it appears they are on board with memos. Since we discussed what to say and not say about NJDEP, I think I am ok for the call with CPG today unless you have anything that you wish to talk to them about with this agenda and memo outline.

Diane

Subject: FS Meeting

Diane:

I think we should have the larger FS call - I've added the NJDEP Meeting discussion to the agenda. We have worked on a outline for the contents of the FS memorandum that we hope addresses CDM's questions from our last call and would like to discuss with your team..

Thanks

Rob,

I was thinking maybe we can talk instead of the FS call, but if you still want to have the FS call, there is no reason for us to have a separate call unless there is something else you want to talk about. We still do not have the CSTAG memo. What would like to have on the agenda for the FS call on Monday?

For our contribution on the agenda, I can talk to the group about our NJDEP meeting. I know my team has relooked at the RTCs on the tech memo.

Thanks,
Diane

Diane:

Let me know when you would like to talk on Monday. After our 11 am FS call. I have a commitment between 12:30 and 2:30. I am free in the morning before 11 and after 2:30.

Thanks

Hi Rob,

Would you like to have a call on Monday? Just a heads up, we have not received the CSTAG memo yet. However, as I mentioned earlier, we are meeting with NJDEP tomorrow about their CSTAG comment memo. We may be able to share something from that meeting. However, if you would like to put it off until we get CSTA comments, I understand.

Thanks

Good morning Rob,

As a heads up, we posted our CSTAG presentation on ourpassaic.org.
